# Productivity and Artificial Intelligence (AI)

[integratedconsulting.ro](https://integratedconsulting.ro)

## PRODUCTIVITY AND ARTIFICIAL INTELLIGENCE

The primary purpose of this workshop is to empower non-technical employees with basic knowledge and skills to effectively integrate AI tools and techniques into their daily work processes, thereby significantly enhancing their productivity and operational efficiency.

### Empower Your Day with AI: Productivity Redefined.

**People benefit:** gain practical skills in leveraging AI tools to streamline their work and enhance efficiency, leading to a significant boost in their daily productivity. They'll also develop a deeper understanding of AI applications, enabling them to make informed decisions and creatively integrate AI solutions into their professional tasks for optimal performance.

**Organisation benefit:** a notable increase in overall efficiency and project effectiveness, as employees become adept at utilizing AI tools for optimized work. This investment in AI training also positions the organization at the forefront of technological innovation, fostering a culture of continuous learning and adaptation that can drive long-term competitive advantage and growth.

**Program is** covering topics from AI fundamentals to practical tools and implementation strategies. It focuses on hands-on learning and real-world applications, ensuring that participants can immediately apply AI solutions to boost productivity and streamline workflows in their professional environments.

The program can be configured from 0,5 to 2 days depending on the group or specific requirements.

Participants: max. 15 Persons (classroom or online)

Cost: starting from ~~4.400~~ 900 EUR
