Lean Fundamentals

LEAN FUNDAMENTALS

The primary purpose of this workshop is to **understand process thinking** and to instill **customer value thinking & continuous improvement**

The biggest room in the world is the room for improvement

People benefit: equips individuals with the skills and tools to analyse and improve processes. Attendees learn how to gather and interpret data effectively, improving their decision-making capabilities. They also acquire problem solving abilities and learn how to work effectively across different departments and teams.

Organisation benefit: Involving employees in continuous improvement initiatives, can boost morale and engagement. Lean principles focus on waste reduction, which can lead to significant cost savings for organizations, to higher-quality products or services, increased efficiency and customer satisfaction

Program includes Lean history and process definition, practice of different ways of process mapping, types of waste, understanding customer value and identifying value added in your processes; how to organize your lean project

The program can be configured depending on the group or specific requirements.

Participants: max. 15 Persons (classroom or online)

Cost: starting from ~~1.400~~ 900 EUR
